

R Biological Analysis

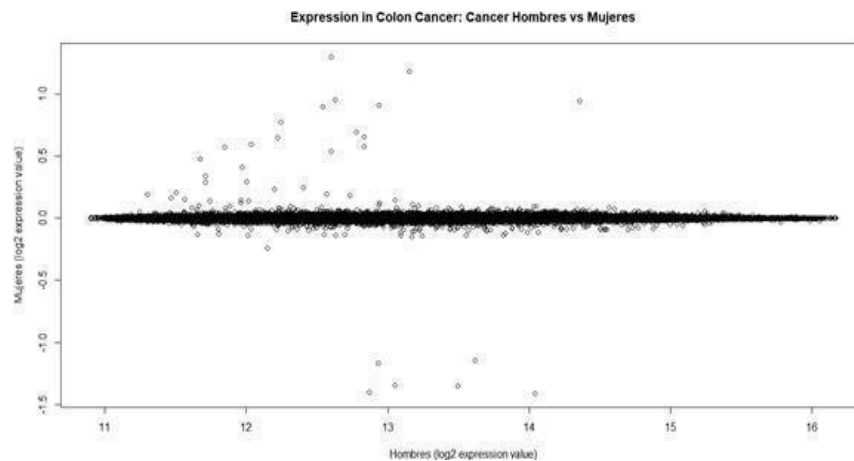

Authors: José Luis Madrigal Sánchez, Alan Josué Melgar Fuentes, Jorge Isidro Blanco Martínez and Christian Parrish Gutiérrez Arrieta

In this project we used bioinformatic resources to understand gene expression in colon cancer. Basically, we obtained information from datasets of GEO repository and made some graphics to look for patterns.

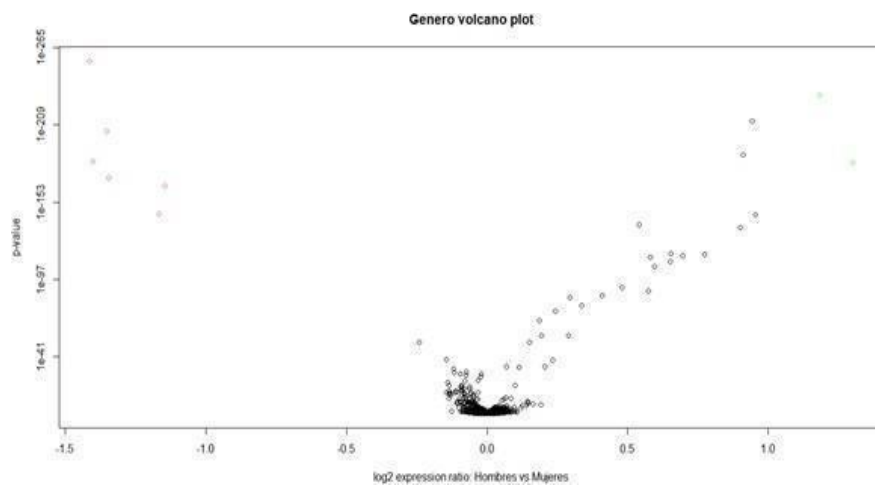

Here we have a heat map and dendrogram.

Here we have a R-I graphic.

Here we have a volcano graphic.

Finally, here we have a dispersion graphic.
